Media Delivery Boost Content Delivery Network

Optimize the delivery of web content to your end users.

Experience a better latency by leveraging a state-of-the-art Orange Content Delivery Network infrastructure.

High capacity and redundant Content PoPs are continuously deployed strategic countries in Africa and in the Middle East.

As Content Provider, you can target the countries where to optimize your content delivery strategy and boost content usage. No investment is required for the infrastructure.

You only need a single contract with Orange: the overall delivered traffic will be charged, no matter the number of used CDN instances

You can monitor the CDN's performance at all times via a comprehensive online dashboard.

Take advantage of this offer to generate additional business opportunities with Orange Affiliates.
